D. Market Size Calculation — Three Scenarios (USD, 1 USD = 2.80 ILS)

FORMULA:

Market Size (USD) = Active Registered Dogs x Avg. Annual Expenditure per Dog / 2.80

636,542 x \$[X per dog] = Annual USD Market Value

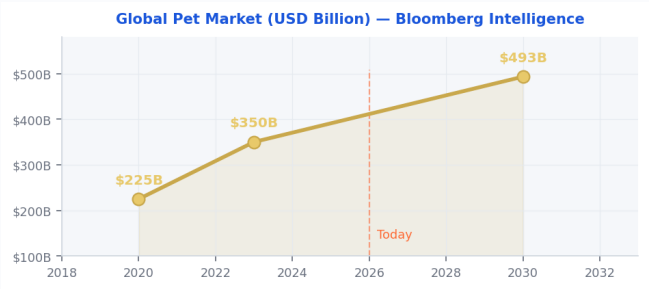

CONSERVATIVE Annual spend/dog: ILS 6,000/dog (\$2,143/dog) 636,542 × \$2,143 \$1.36 Billion \$1364M USD	BASE CASE Annual spend/dog: ILS 8,500/dog (\$3,036/dog) 636,542 × \$3,036 \$1.93 Billion \$1932M USD	OPTIMISTIC Annual spend/dog: ILS 12,000/dog (\$4,286/dog) 636,542 × \$4,286 \$2.73 Billion \$2728M USD
---	--	--

Model Assumptions:

- (1) All 636,542 registered dogs are assumed to be actively kept in households.
- (2) Exchange rate: 2.80 ILS/USD (May 2026). Original ILS figures shown in parentheses throughout.
- (3) Unregistered dogs are excluded — actual market may be 10–20% higher than all estimates.
